

## The SUM Program for Medical Transcription Training

### Inventory of Reports with Lengths in Minutes

Advanced Medical Transcription			
Cardiology			
Report ID	Length	Assigned	Lines
1. Consultation: Arteriosclerotic and hypertensive cardiovascular disease	03 min 27 sec		
2. Consultation: Chest pain and possible abdominal aortic aneurysm	08 min 55 sec		
3. Emergency Note: Cardiomyopathy and congestive heart failure	03 min 08 sec		
4. History & Physical: Syncope and hypertension; rule out arrhythmia and sick sinus syndrome	05 min 58 sec		
5. Admission Note: Left lower extremity deep venous thrombosis	03 min 07 sec		
6. Emergency Note: Sudden cardiac arrest and severe congestive cardiomyopathy	02 min 40 sec		
7. History & Physical: New-onset atrial fibrillation	02 min 47 sec		
8. History & Physical: Arteriosclerotic heart disease with chest pain and congestive failure	02 min 24 sec		
9. Admission Note: Unstable angina; rule out subendocardial myocardial infarction	03 min 31 sec		
10. History & Physical: Angina pectoris and hypertension	03 min 19 sec		
11. Admission Note: Chest pain; rule out myocardial infarction and angina	03 min 26 sec		
12. History & Physical: Recurrent atrial flutter with possible pulmonary embolus	02 min 21 sec		
13. History & Physical: Orthostatic hypotension	03 min 45 sec		
14. Admission Note: Rule out myocardial infarction; coronary artery disease	03 min 11 sec		
15. History & Physical: Organic heart disease and essential hypertension	02 min 02 min		
16. History & Physical: Angina and atrial fibrillation	03 min 48 sec		
17. Emergency Note: Syncope; possible sinus node dysfunction	02 min 04 sec		
18. Discharge Summary: Essential hypertension	02 min 45 sec		
19. Discharge Summary: Coronary artery disease and hypercholesterolemia	02 min 55 sec		
20. Discharge Summary: Chest pain post bypass grafting	03 min 25 sec		
21. Discharge Summary: Third-degree complete heart block; acute myocardial infarction	07 min 30 sec		
22. Discharge Summary: Inferior myocardial infarction and cardiac arrest	06 min 43 sec		
23. Discharge Summary: Probable angina pectoris; arrhythmia	02 min 43 sec		
24. Discharge Summary: Tachycardia with sinus node dysfunction; pacemaker implantation	03 min 36 sec		
25. Discharge Summary: Cardiac arrest and death	02 min 02 sec		
26. Discharge Summary: Infected aortic bifemoral graft	01 min 26 sec		
27. Discharge Summary: Abdominal aortic aneurysm and tachyarrhythmia	08 min 34 sec		
28. Discharge Summary: Status post truncus arteriosus repair with replacement of conduit	01 min 40 sec		
29. Discharge Summary: Incompetent saphenous veins (varicose veins)	02 min 15 sec		
30. Discharge Summary: Acute pericarditis	04 min 32 sec		
31. Discharge Summary: Carotid artery and aortoiliac stenosis	02 min 05 sec		
32. Discharge Summary: Wolff-Parkinson-White syndrome	03 min 53 sec		

## The SUM Program for Medical Transcription Training Inventory of Reports with Lengths

<b>Cardiology</b>			
<b>Report ID</b>	<b>Length</b>	<b>Assigned</b>	<b>Lines</b>
33. Discharge Summary: Congestive heart failure and possible transient ischemic attack	02 min 44 sec		
34. Operation: Central venous catheter placement	02 min 00 sec		
35. Operation: Coronary artery bypass grafting x 3	06 min 45 sec		
36. Operation: Percutaneous transluminal coronary artery angioplasty	02 min 59 sec		
37. Operation: Replacement of pacemaker generator	01 min 46 sec		
38. Operation: Ventricular septal defect repair; conduit repair of pulmonary stenosis	08 min 23 sec		
39. Operation: Saphenous vein bypass; common iliac atherectomy	07 min 13 sec		
40. Operation: Pacemaker placement	03 min 31 sec		
41. Operation: Cardioversion	00 min 33 sec		
42. Operation: Aortic and pulmonary valvotomies with Gore-Tex patching	08 min 34 sec		
43. Operation: Resection of aortic aneurysms with composite valve grafts	05 min 10 sec		
44. Operation: Resection of abdominal aortic aneurysm	03 min 12 sec		
45. Operation: Thromboembolectomy and femoral-femoral bypass grafting	07 min 30 sec		
46. Diagnostic Procedure: Electrocardiogram series	01 min 35 sec		
47. Diagnostic Procedure: Electrocardiogram	01 min 07 sec		
48. Diagnostic Procedure: Electrocardiogram	00 min 28 sec		
49. Diagnostic Procedure: Thallium treadmill exercise stress test	04 min 16 sec		
50. Diagnostic Procedure: Echocardiogram	01 min 07 sec		
51. Diagnostic Procedure: Echo Doppler study	01 min 12 sec		

## The SUM Program for Medical Transcription Training Inventory of Reports with Lengths

Advanced - Gastrointestinal			
Report ID	Length	Assigned	Lines
1. Emergency Room Note: Diarrhea with nausea and vomiting	04 min 01 sec		
2. History and Physical: Diarrhea; bowel distention	04 min 13 sec		
3. History and Physical: Abdominal pain; probable peptic ulcer disease	02 min 32 sec		
4. History and Physical: Metastatic colon cancer	02 min 16 sec		
5. Consultation: Difficulty swallowing; severe reflux esophagitis with ulceration	04 min 38 sec		
6. History and Physical: Acute abdominal pain; biliary colic and cholelithiasis	03 min 59 sec		
7. Emergency Room Note: Intestinal obstruction; possible intussusception	03 min 12 sec		
8. Admission Note: Right inguinal hernia	01 min 38 sec		
9. History and Physical: Right lower quadrant pain; rule out appendicitis	02 min 10 sec		
10. Discharge Summary: Appendicitis with peritonitis	04 min 13 sec		
11. Discharge Summary: Active duodenal ulcer	03 min 08 sec		
12. Discharge Summary: Colonic adenocarcinoma	02 min 40 sec		
13. Discharge Summary: Carcinoma of the stomach	04 min 38 sec		
14. Discharge Summary: Massive rectal bleeding	01 min 40 sec		
15. Discharge Summary: Hemorrhaging esophageal varices	02 min 32 sec		
16. Discharge Summary: Acute hemorrhagic pancreatitis	04 min 39 sec		
17. Discharge Summary: Cholecystitis with cholelithiasis	03 min 14 sec		
18. Discharge Summary: Pancreatic tumor	01 min 35 sec		
19. Discharge Summary: Irritable bowel syndrome with colonic bleeding	06 min 39 sec		
20. Discharge Summary: Short-bowel syndrome	02 min 30 sec		
21. Discharge Summary: Diverticulosis with severe constipation	02 min 16 sec		
22. Discharge Summary: Sclerosing cholangitis; ulcerative colitis	06 min 01 sec		
23. Discharge Summary: Rectal and sigmoid colon carcinoma	02 min 05 sec		
24. Discharge Summary: Abdominal distention; sliding hiatal hernia with gastroesophageal reflux	01 min 09 sec		
25. Discharge Summary: Recurrent peritonitis	03 min 58 sec		
26. Discharge Summary: Gangrene of cecum and transverse colon	01 min 54 sec		
27. Discharge Summary: Upper GI bleeding	01 min 24 sec		
28. Discharge Summary: Right indirect inguinal hernia	02 min 00 sec		
29. Operation: Sigmoidoscopy; resection of perianal skin tags; sphincterotomy; Y-V anoplasty	02 min 53 sec		
30. Operation: Colonoscopy	04 min 41 sec		
31. Operation: Fistulotomy; incision and drainage of rectal abscess	03 min 07 sec		
32. Operation: Hemorrhoidectomy and fistulotomy	02 min 45 sec		
33. Operation: Appendectomy	04 min 20 sec		
34. Operation: Lysis of adhesions	02 min 28 sec		
35. Operation: Right hemicolectomy	05 min 13 sec		
36. Operation: Celiotomy; partial left colectomy; colocolostomy	04 min 47 sec		
37. Operation: Takedown of colostomy; segmental sigmoid resection; excision of Meckel's diverticulum	13 min 21 sec		
38. Operation: Left inguinal hernia repair	03 min 27 sec		
39. Operation: Right inguinal hernia repair	01 min 11 sec		
40. Operation: Umbilical herniorrhaphy	04 min 49 sec		
41. Operation: Gastroscopy	03 min 21 sec		

## The SUM Program for Medical Transcription Training Inventory of Reports with Lengths

<b>Advanced - Gastrointestinal</b>			
Report ID	Length	Assigned	Lines
42. Operation: Upper Endoscopy	01 min 56 sec		
43. Operation: Upper GI endoscopy; colonoscopy; polypectomy	02 min 15 sec		
44. Operation: Subtotal gastrectomy; Billroth II gastrojejunostomy	03 min 12 sec		
45. Operation: Vertical banded gastroplasty	04 min 18 sec		
46. Operation: Exploratory laparotomy; cholangiography; cholecysto-Roux-en-Y jejunostomy	04 min 16 sec		
47. Operation: Gastroscopy and esophageal dilatation	04 min 02 sec		
48. Operation: Esophageal motility study	02 min 52 sec		
49. Operation: Esophagogastrectomy with intrathoracic esophagogastrostomy	11 min 30 sec		
50. Operation: Direct laryngoscopy; cricoid myotomy; Zenker's diverticulum repair	04 min 06 sec		
51. Operation: Exploratory laparotomy; open liver biopsy	06 min 41 sec		
52. Operation: Liver biopsy	00 min 45 sec		
53. Operation: Exploratory laparotomy; cholecystectomy	08 min 28 sec		
54. Operation: Cholecystectomy; cholangiogram; bile duct exploration; choledochoscopy	09 min 52 sec		
55. Operation: Hemorrhoidectomy	02 min 24 sec		
56. Consultation: Abdominal pain; epigastric mass	01 min 21 sec		
57. Operation: Appendectomy	00 min 57 sec		
58. Operation: Upper endoscopy	01 min 04 sec		
59. Discharge Summary: Carcinoma, distal esophagus	02 min 58 sec		
60. Operation: Anterior sigmoid resection; descending colostomy with mucous fistula; liver biopsy; gastrostomy	07 min 26 sec		
61. Operation: Bassini herniorrhaphy	03 min 33 sec		
62. Operation: Colonoscopy; polypectomy	02 min 13 sec		
63. Discharge Summary: Upper GI bleeding; gastric ulcer	01 min 59 sec		
64. Operation: Cholecystectomy; operative cholangiogram	03 min 17 sec		
65. Discharge Summary: Perirectal abscess; ulcerative colitis	02 min 33 sec		

## The SUM Program for Medical Transcription Training Inventory of Reports with Lengths

Advanced - Orthopedic			
Report ID	Length	Assigned	Lines
1. History & Physical: Discoid menisci	06 min 29 sec		
2. Consultation: BK amputee; status post peroneal nerve resection	01 min 04 sec		
3. Hospital Progress Note: Back pain	02 min 15 sec		
4. History & Physical: Degenerative joint disease of the left knee	03 min 22 sec		
5. Hospital Progress Note: Carpal tunnel syndrome	00 min 20 sec		
6. History & Physical: Right hip pain	05 min 41 sec		
7. History & Physical: Herniated cervical disk	04 min 45 sec		
8. Hospital Progress Note: Osteomyelitis of the ankle	02 min 02 sec		
9. History & Physical: Rotator cuff tear	03 min 07 sec		
10. History & Physical: Skeletal injuries; polytrauma	03 min 22 sec		
11. Discharge Summary: Dupuytren's contracture	01 min 04 sec		
12. Discharge Summary: Bone graft for radial fracture	00 min 42 sec		
13. Discharge Summary: Hip fracture	01 min 39 sec		
14. Discharge Summary: Arthroscopy	00 min 52 sec		
15. Discharge Summary: Tibial fracture	01 min 42 sec		
16. Discharge Summary: Osteomyelitis; status post toe amputation	02 min 30 sec		
17. Discharge Summary: Rheumatoid arthritis	03 min 31 sec		
18. Discharge Summary: Bipolar hip replacement	01 min 42 sec		
19. Discharge Summary: Tensor fasciae latae syndrome	02 min 11 sec		
20. Discharge Summary: Herniated disk with cauda equina syndrome	03 min 42 sec		
21. Discharge Summary: Cervical fracture with halo traction	01 min 59 sec		
22. Hospital Progress Note: Status post brachial plexus injury	00 min 54 sec		
23. Discharge Summary: Dislocation of interphalangeal joint, with plate repair	00 min 58 sec		
24. Consultation: Fracture of tibia and fibula	00 min 56 sec		
25. Operation: Carpal tunnel release; ganglion cyst excision	01 min 35 sec		
26. Operation: Radius fracture with pin fixation	03 min 16 sec		
27. Operation: Ulnar nerve release at the cubital tunnel	05 min 04 sec		
28. Operation: Bankart shoulder repair	05 min 12 sec		
29. Operation: Rotator cuff repair	08 min 15 sec		
30. Operation: Open reduction, internal fixation of medial and lateral malleoli with screw fixation	02 min 22 sec		
31. Operation: Arthroplasty and tenotomy of hammertoes	03 min 49 sec		
32. Operation: Austin bunionectomy; Akin osteotomy	15 min 03 sec		
33. Operation: Joint fusion and screw fixation of toes	04 min 33 sec		
34. Operation: Prosthesis removal	02 min 44 sec		
35. Operation: Arthroscopy; meniscectomy; Gore-Tex graft	04 min 49 sec		
36. Operation: Meniscectomy; removal of loose bodies; shaving of tibial plateau	02 min 02 sec		
37. Operation: Total knee arthroplasty	17 min 33 sec		
38. Operation: Removal of Lottes nail	01 min 02 sec		
39. Operation: Ilizarov leg lengthening procedure	10 min 18 sec		

## The SUM Program for Medical Transcription Training Inventory of Reports with Lengths

<b>Advanced - Orthopedic</b>			
Report ID	Length	Assigned	Lines
40. Operation: Titanium screw insertion	01 min 11 sec		
41. Operation: Exploration of tendo Achillis	02 min 30 sec		
42. Operation: Intertrochanteric fracture reduction with screw and plate	01 min 50 sec		
43. Operation: Total hip arthroplasty	07 min 44 sec		
44. Operation: Hip reconstruction	15 min 58 sec		
45. Operation: Revision of total hip arthroplasty	05 min 03 sec		
46. Operation: Open reduction of hip dislocation	05 min 56 sec		
47. Operation: Hemilaminectomy at L5-S1	07 min 59 sec		
48. Operation: Decompression; excision of disk at L5-S1	02 min 35 sec		
49. Operation: Disk excision; Luque rod insertion for kyphoscoliosis	07 min 50 sec		
50. History & Physical: Lumbosacral sprain	02 min 33 sec		
51. Operation: Arthroscopy and repair of meniscus	04 min 38 sec		
52. Operation: Repair of crush injury	07 min 42 sec		
53. Operation: Total hip replacement	11 min 42 sec		
54. Operation: Release of coracoacromial ligament	03 min 07 sec		

<b>Advanced - Pathology</b>			
Report ID	Length	Assigned	Lines
1. Autopsy, Gross	28 min 06 sec		
2. Autopsy, Gross	06 min 13 sec

87. Bone Scan	01 min 08 sec		
88. Cerebral Blood Flow Study	00 min 40 sec		
89. Lung Scan	02 min 04 sec		
90. MUGA Scan	00 min 28 sec		
91. Thallium Scan	00 min 44 sec		
92. Renal Sonography	00 min 33 sec		
93. Ultrasound of Ovaries	00 min 29 sec		
94. Cranial Ultrasound	00 min 43 sec		
95. Obstetric Ultrasound	01 min 22 sec		

## The SUM Program for Medical Transcription Training Inventory of Reports with Lengths

Advanced - Radiology			
Report ID	Length	Assigned	Lines
96. Ultrasound for Evaluation of Pregnancy	01 min 42 sec		
97. Abdominal Sonogram	01 min 33 sec		
98. Gallbladder Ultrasound	00 min 47 sec		
99. CT Scan of Sella	00 min 47 sec		
100. CT Scan of Head	00 min 48 sec		
101. CT Scan of Sinuses	00 min 39 sec		
102. CT Scan of Larynx	01 min 01 sec		
103. CT Scan of Neck	01 min 50 sec		
104. CT Scan of Chest	02 min 23 sec		
105. CT Scan of Abdomen and Pelvis	03 min 44 sec		
106. CT Scan of Abdomen and Pelvis	02 min 49 sec		
107. CT Scan of Lumbar Spine	02 min 39 sec		
108. MRI Scan of Liver	03 min 03 sec		
109. MRI Scan of Right Clavicle	01 min 13 sec		
110. MRI Scan of Pelvis	01 min 57 sec		
111. MRI Scan of Thoracic and Lumbar Spine	03 min 15 sec		
112. MRI Scan of Hips	01 min 28 sec		
113. MRI Scan of Chest	00 min 57 sec		
114. MRI Scan of Chest	01 min 36 sec		
115. MRI Scan of Brain	02 min 53 sec		
116. MRI Scan of Head	01 min 20 sec		
117. Intraoperative Arteriogram	00 min 48 sec		
118. Intravenous Pyelogram	00 min 57 sec		
119. Mammography	02 min 50 sec		
120. Abdomen	00 min 56 sec		
121. Chest	00 min 46 sec		
122. Liver Scan and Flow Studies	00 min 53 sec		
123. CT Scan Post Cervical Myelogram	01 min 13 sec		
124. Right Ribs	00 min 21 sec		
125. Renal Ultrasound	00 min 47 sec		
126. Left Hand	00 min 30 sec		
127. MRI Scan of Head and Sella Turcica	01 min 21 sec		
128. CT Scan of Chest, Abdomen, and Pelvis	02 min 32 sec		
129. Left Tibia	00 min 28 sec		
130. Nephrostograms	00 min 54 sec		
131. Barium Enema	00 min 44 sec		
132. Chest	00 min 50 sec		
133. Upper GI	01 min 56 sec		
134. Pelvic Sonogram	00 min 44 sec		
135. MRI Scan of Brain	01 min 47 sec		
136. Chest	00 min 40 sec		
137. CT Scan of Neck	01 min 45 sec		
138. Cervical Spine	00 min 42 sec		
139. Nephrostogram	01 min 30 sec		
140. MRI Scan of Left Leg	02 min 15 sec		
141. Intraoperative Arteriogram	00 min 49 sec
